RE: NASA Fermi gamma ray space telescope recently discovered a pair of Bubbles.

To whom it may concern,

Please be advised that the pair of Bubbles NASA recently discovered in the Milky Way galaxy is a basic process of energy found in a Patent Application 08/578,325 under, 'Description of Preferred Embodiment' the following excerpt defines,, "... provides finite function, with infinite number of non-energized particles (final quantization of energy) that may be in the form of paired spherical holes called BON and ZYK hereinafter referred to simply as Sphericals." The Sphericals recorded and documented as such in the, "Fabricated Energy "patent application submitted to the USPO, an appeal Court, and finally brought to the US Supreme Court. The question posed in a US Supreme Court Writ of Certiorari was not answered and remains open.

Heed taken when the guardians of a Nation admittedly lack the wisdom to endorse and acknowledge the truth of life's natural ways, i.e., the structural process of energy found in the reproductive process of Life itself. Yet, The US Supreme Court dares to assume its supreme prerogative to overreach and create an insidious pretense of truth in order to interrupt the normal process of human reproduction. Human reproduction is far beyond a personal issue; it provides the only means of survival for the human species and from this follows the means to imagine a Nation to emulate the favor of the human reproductive process. The viability of The US Supreme Court rest upon the consequences imposed upon the human process. A Court that lacks the wherewithal to protect the process of Human Life is no more capable to protect the Nation than a chorus of butterflies singing the National Anthem or Yankee Doodle Dandy. A Governing Body that dares to claim its right to act with pompous arrogance of such magnitude to even suggest, never mind to concoct a pretext that Divine intervention removed absolute truth from energy's structuring process to create a Lie. The Lie so imposed by Divine intervention justified the Court's order to decree a flaw found by the Court occurs in the reproductive process of life during an infinitesimal point in time (defined by the Court as being a non-viable period of time) out of eons of time since the

**NOTICE:** NASA discovered bubbles: claimed and defined as Sphericals BON & ZYK

beginning of time where the procreation process by which the human being depends entirely upon to survive and to this day and continues to populate this world as humans. Rather, both the Lie and the non-viable flaw are found imbedded in the Governing process of the Nation. Blame is not upon the source of truth, but upon the emulation of truth a Nation follows. Look into the guardians of the Nation and you'll find there the true non-viable elements that are now aborting the heart and soul of the Nation and the price paid for the demise is the cost paid by human lives. So goes life as the sorting takes place in the process of life, those of great intelligence who admittedly proved inept to grasp and understand life, least of all their own, yet are able to find a flaw existing at a specified point within the vast eons of time where the natural reproductive process of a certain life came to identify itself as a human life, is now decreed non-viable by Law. Should this be true to form within the greater mind the entire human race would wipe itself clean from so-called earth? The Lords of Law claim their innocence of Life then proceed to usurp absolute truth to imbed a lie in order to Lord over the process of Human life, thereby the ability to enslave human beings to the whim or will of a Body of Lies. A day came when life's process stood before the court in spirit to face judgment, absent the decreed non-viable body of life, for such iniquity, if allowed an appearance would embarrass the Court and if publicly displayed arrest and grave punishment, loss of property, and imprisonment at whim or will of and by select prerogatives is then imposed by Law. For such freedoms of honest expressions is Taboo. Out of sight out of mind remain the rules of engagement. Yet, again the non-viable human as though a terrorist is allowed by Law, to be stripped of dignity, crushed, torn apart, used for parts, experiments and or destroyed. Else, the non-viable is cannibalized then served in concoctions that feign to save ne'er do well humans for profit. The whole matter reeks of ghoulish behavior.

The gift of human procreation, whose only guilt is being of absolute untarnished truth, is now placed on the chopping block of Justice. The Reproductive Process of Human Life trumped by an iniquitous breach of trust by The US Supreme Court that relinquished its responsibility to third party whim or wish, thumbs up or down judgments. Any innocent human being caricaturized as an interloping creature will suffer equally as a non-viable, for under opaque Law to seek justice one is easily victimized and forced to choke on every word of Law, knowing true justice has proven itself as nothing more than a fabricated illusion to serve prerogatives. The irony is in the fact every human being must now pass through and experiences the non viable portion of the human reproductive process in order to become a fully developed being. Yet, astonishingly the non-viable label applied under and by the same LAW uses the same interloping non-viable creature as a vehicle to carry title, property and fortunes through the non-viable process into the world of prestige and debt to the world of poverty. The Law enjoins itself with guilt of a double standard, for the right of property must also carry the non-viable label. Can this be that those humans supposedly destroyed and aborted during the non-viable stage, then under natures Law allow the abandoned spirit of life to carry forward into the world of prestige to complete life's process served on behalf of its own rejected gifts. Opaque truth trumps contract law (The US Constitution), by intent of law rulings, disposed by whim/wish, personal or political persuasion of and by a Court Judge, who simply states of Justice, "It is not the law, but the intent of law."

**NOTICE:** NASA discovered bubbles: claimed and defined as Sphericals BON & ZYK

Due to the above abhorrent examples of Law and Justice that remain in effect, a case seeking protection for the meager, "Fabricated Energy" process is out of the question, is ludicrous. The matter now rest in a PO Realm Claim made in traditional worldly fashion, iron rods and all, duly recorded. From the region of Life's origin justice is served by the saving grace daily bread of Nations or lack there of partake to emulate and celebrate the gift of Life.

Should some iconoclast or political stalwart fail to acknowledge, thus ignore the Sphericals named, BON and ZYK respectfully. Or cause further insult by any attempt to recite a name for the so-called Bubbles other than, BON and ZYK will be taken as a slap the face rejection of this beings entire body of work, not as a thrown down gauntlet. This insult would join NASA's recent insult and together with sad demise both will no doubt suffer further loss of gravity. Over the years NASA's exploits and revelations of Cosmos, as limited as they were, gave visual uncanny proof to this beings work. One might say these Bubbles uncovered by NASA are big enough Balls to communicate this notice.

NASA discovered Bubbles and found Sphericals BON and ZYK. For this, eternal oblations are in order and would appear appropriate, but your resource to move on to completion is crippled by tribute blind ignorance self serving politicians dole out. NASA is deemed as and treated as a non-viable to find itself in the midst of an abortion process whose effort to grow and develop to its full potential has been interfered with, stopped. Yet, the spirit remains.

This advisory letter is presented for review and would greatly appreciate a response from a principle NASA authority in the above matters directed to and from the greater mind of your inner being that seeks to know and understand.

Please forget, this being is but an illusion that strives to appear in the eyes of Cosmos from there to here the view?!

Sincerely,

FrankB
